“From this point forward, it’s the future that counts”

Commencement Ceremonies for Huntley High School were held on May 31 at the Sears Centre with 512 seniors receiving diplomas, and 118 graduating with honors, having maintained a 3.8 or better grade point average.

Salutatorian Kyle Sommerfield reminded his fellow classmates to “never forget what you have accomplished at Huntley High School.”

Sommerfield also offered some friendly advice: “Keep the friendships... keep the memories... and keep the lessons learned wherever you go.”

Jessica Chalas, Valedictorian, addressed the crowd and summed up the importance of the day by reminding everyone that, “Now it’s time to take what you’ve learned, the good and the bad, and apply it to your future... because from this point forward, it’s the future that counts.”

Summer Construction at Harmony Road Campus

Huntley 3000 Expansion Projects

District 158 is excited to announce Phase I of the Huntley 3000 Expansion Project at Huntley High School is underway. This phase of the two-part expansion project will include the addition of new classrooms and science labs, an athletic fieldhouse, and a redesigned main entrance to the building.

The construction project will also include new traffic flow patterns, new parking spaces for busses, students, and staff, and the addition of a new road east of the school leading to a new student parking lot. Upgrades to the school’s tennis courts, softball field and other athletic areas, along with the addition of stadium lighting and a new scoreboard are also planned.

It is anticipated that many of the projects will be completed prior to the start of the 2014-15 school year, with completion of the new fieldhouse in spring of 2015.

Continued on page 3

Architect drawing of redesigned main entrance to Huntley High School courtesy of Wold Architects and Engineers
Communicate 158 is published by School District 158 four times per year. Volume 37—Issue 4
Once completed, the athletic fieldhouse will include a six-lane, 200-meter running track, and areas for pole vaulting, batting cages, a larger weights area, a fitness area, and a mats room for wrestling.

Future construction plans include a larger cafeteria, multiple common areas, and a redesigned library.

The entire project is being funded through a $39 million construction grant from the state.

### Guiding Principles for the Project:

1. The building main entry will be easily identifiable to visitors and will communicate a “Red Raiders” identity to all who enter.
2. Students will understand they are part of the Red Raiders community (culture) while within the building.
3. The building will include learning environments for 21st Century Learning that are flexible and adaptable, as well as collaborative.
4. The building is a community resource and will promote community pride.

---

**Summer Construction**

Continued from page 1

In addition to the building construction at Huntley High School, officials from The Village of Huntley, District 158, and McHenry County have worked together in an effort to find a solution to improve the traffic conditions in and around the Harmony Road Campus.

McHenry County will undertake two construction projects this summer to enhance the safety and operations on Main Street, Marengo Road, Hemmer Road and Harmony Road.

The first project will involve rehabilitating the existing Main Street bridge over the Kishwaukee River. This will require the complete closure of the bridge over the summer until **approximately Friday, August 8**. The County is committed to completing the construction during the months school is not in session. Detour signs will be posted.

The second project that will occur around the same time will be the installation of traffic signals at the Main Street/Marengo Road/Hemmer Road and the Hemmer Road/Harmony Road intersections. These traffic signals will greatly enhance the traffic flow to and from the Harmony Road Campus at peak periods.

More construction news will be posted to the District 158 website at [www.district158.org/construction-updates/](http://www.district158.org/construction-updates/) as it becomes available.

---

**Congratulations to the HHS Class of 2014!**

Conley Students Shoot for the Stars in Annual Battle of the Books
By Edie Gogny, 5th Grade Teacher

Fifth grade students at Conley Elementary once again displayed their knowledge of many excellent books in the annual Battle of the Books competition.

Students worked in teams to read books listed on common book lists. They prepared notes about the books they read and discussed these with their teammates in order to ensure that all team members would be prepared for the Battle.

Then on competition day, students had the opportunity to showcase their knowledge by playing four different types of quiz games: Family Feud, Academic Whiz Kid, Super Challenge, and Relay. The two highest scoring teams after eight preliminary rounds, the Comets and the Blast, participated in the final Battle of the Books emceed by District 158’s Jessica Lombard, Assistant Superintendent of Human Resources and Mark Altmayer, Chief Financial Officer.

Members of the Comets include: Ismaeel Mujahid, Sara Albergo, Atalie Ascencio, Olivia Kozlowski, Tyler DeBlieck, and Nicholas Rhody.

Members of the Blast include: Lanie Riese, Jared Dost, Aiden Pavoris, Eric Lin, and Josh Snyder.

After an exciting battle, the Comets prevailed and won the 2014 Battle of the Books competition.

Conley Elementary staff would like to thank the many wonderful volunteers who came to help with this event. Whether volunteers guided students to the correct venue for their quiz round or judged students’ answers, their help was instrumental in making this event successful.

A special thank you goes to Richard Meyers of Culvers in Huntley for the donation of prizes for all Battle of the Books participants.

2014 Battle of the Books Champions - Team Comet
Atalie Ascencio, Sara Albergo, Nicholas Rhody, Olivia Kozlowski, Ismaeel Mujahid, Tyler DeBlieck with Conley Principal Rhonda Maciejewski, Mark Altmayer, Jessica Lombard, and Richard Meyers of Culvers

Challengers & First Runner-Up - Team Blast
Lanie Riese, Eric Lin, Jared Dost, Aiden Pavoris, and Josh Snyder with Conley Principal Rhonda Maciejewski

Congratulations HHS Math Team

The Math Team at Huntley High School saw much success this year including taking first place overall in the Fox Valley Conference, second place overall in the Hononegah Invitational, and a phenomenal showing in the ICTM Regional Competition which earned the team 17 State qualifiers!

“Many of those students are going to State representing the District in a very difficult subject that not many adults are able to handle,” stated parent Sapna Machen.

Another fantastic year for the Huntley High School Math Team!
Providing the Keys to Success at Martin Elementary

During a short drive back to Martin Elementary School after attending a meeting in which student learning data was provided to building administrators, Principal Matt Webster came up with the idea of creating a program to support student learning at his school.

But, this wouldn’t be just any program. He wanted something different; something that would support students who fell within the average range of learning and would provide them with additional opportunities for growth.

Webster shared his idea with his Assistant Principal, Ryan Hart, who was immediately sold on the idea, and soon after the two began brainstorming.

Using a message heard often from the Athletic Director at his alma mater, St. Ambrose University, Webster selected the N.O.W. slogan, which stands for Never an Opportunity Wasted. He felt this slogan very much fit the concept of this new program and also wanted to instill in students the idea to never waste an opportunity.

Thinking outside the box and using ideas from the nationwide charter schools program called KIPP (Knowledge Is Power Program), the heart of the N.O.W. Academy program was developed based on four pillars.

- **More Instructional Time**
- **Highly Engage Students in Learning**
- **Inspire Students to Want to Succeed**
- **Focus on the Future**

Both Webster and Hart knew the support of staff members at the grade 3-5 school combined with the support of parents and a strong commitment from students would be the key to success. After all, to make the program work, everyone involved would need to commit to additional time which included after-school hours on Tuesdays and Thursdays, along with Saturday mornings.

Invitations to participate in the N.O.W. Academy were sent to over 200 students who were at or below the 50th percentile and not currently receiving special education services.

A total of 108 students and their parents accepted the opportunity to participate in the N.O.W. Academy and teachers were then selected through an application process.

Additionally, NIU teacher candidates from across the District were invited to participate which allowed for higher teacher to student ratios.

The N.O.W. Academy included 5 sections, with one NIU teacher candidate and one Martin teacher per class: two 3rd grade classes, two 4th grade classes, and one 5th grade class.

Students participating in the program received nearly 3 hours of additional reading instruction and 1 additional hour of math instruction per week, equivalent to one additional month for a N.O.W. Academy student compared to the average 9 months of instruction.

The results of the N.O.W. Academy were outstanding! Student’s attitudes toward school increased as well as test scores.

Just as importantly, student’s confidence level for participating in the classroom increased dramatically. By participating and being engaged in the classroom, teachers are able to get more out of the student on a daily basis than before N.O.W. Academy.

Every teacher at Martin Elementary took a survey and indicated participation from N.O.W. students increased drastically throughout the school year.

Webster is very pleased to announce the continuation of the N.O.W. Academy program for the 2014-2015 school year which will also be expanded to include opportunities for students who are currently above the 50th percentile and not currently enrolled in the District’s gifted program.

‘Cut Out Cancer’ Event a HUGE Success!

Cancer is a frightening word that we hear all too often. And so, students, families, and staff members at Leggee Elementary School held their first annual “Cut Out Cancer” event on May 27.

The “Cut Out Cancer” event idea began when art teacher Cindy Rick was saddened by the sight of a child within the community who was undergoing cancer treatments. According to Rick, she decided to take action by involving the students and staff at Leggee because they are an amazing group of people that always come together to help others.

The students were given goals and depending on the goals they achieved, community members and staff volunteered to have their heads shaved to show their support of those that have lost their hair from chemotherapy treatments. Several students from the K-5 school, with parent permission, volunteered to have a minimum of 8” of hair cut to be donated to Children With Hair Loss, a nonprofit organization that makes wigs and donates them to children at no cost to the families.

“If we, as a school, can put together a successful campaign to meet our goal in fundraising for this charity, I pledge to shave my head in front of the school. Help me be bald!” said Leggee principal Scott Iddings.

Through the combined efforts of everyone, Leggee’s first annual “Cut Out Cancer” event raised a total of $10,132 to be donated to Bear Necessities Pediatric Cancer Foundation.

Many thanks to those who had their heads shaved in front of the entire school: Firefighter Tyler Webster from Woodstock ($1,000 goal level); Police Officer Rowe and Police Officer Miller from Huntley ($3,000 goal level); staff members Mike Fayman, Leggee’s head custodian and SNAP teacher Amy Disabato ($5,000 goal level); and Cindy Rick and principal Scott Iddings ($10,000.00 goal level).

Thanks to those who had their hair cut for donation to Children With Hair Loss: Morgan Bach (4th grade), Kendall Gallaugher (3rd grade), Leia Dubose (3rd grade), Grace Jones (2nd grade), Evie (1st grade), Cynthia Smith (Kindergarten), and Sarah Palazzetti (3rd grade teacher).

Special thanks to hair stylist Ellyn Knox and others from the Robin Hill Salon in Huntley for tackling the job of shaving and cutting hair.

LIGHT Program Completes Inaugural Year

Last August, the LIGHT (Life Instruction Guiding Huntley Transition) program kicked-off its inaugural year of the three-tiered program.

Located at Huntley Park District’s Deicke Park and McHenry County College, the LIGHT program, taught by District 158 special education teachers and support staff, is designed to provide a range of academic and vocational training for students with disabilities ages 18-21 as they progress into adulthood and higher education.

All students in the program have completed their graduation requirements, but have delayed acceptance of their diploma in order to receive additional support and instruction while they transition to adulthood.

Over the course of the year, the program made important connections within the community and several students have been successful in finding paid employment with local businesses.

Whether they are participating in service learning opportunities at the Animal House Shelter, Grafton Food Pantry or Heritage Woods of Huntley or taking classes at McHenry County College, LIGHT students are making a name for themselves in their community.

District 158’s Special Services Department, parents, employees and other supporters of the LIGHT program would like to thank the following area businesses and organizations for their support of recently hired students: Huntley Park District, Gap Outlet, Trader Joe’s, Covidien, and Huntley Jewel.

LIGHT students are also employed at Noodles and Company and Arby’s in Lake in the Hills, Woodstock Culver’s, Crystal Lake Portillo’s, Monkey Joe’s of Crystal Lake, Woodstock Public Library and the Woodstock Recreation Center.

“These business and community relationships are very important to the program and we’re always looking to expand our network.”

~ Elizabeth Kienzle
Transition Facilitator

The LIGHT program concluded the year by hosting a breakfast to highlight student growth and recognize the relationships built within the community.

If you would like to help students in the LIGHT program, please contact Elizabeth Kienzle, Transition Facilitator at ekienzle@district158.org for more information on how you can become a “Friend of the Program”.

Helping Hands & Caring Hearts ♥
The Volunteers of District 158

Eileen Delahanty, Volunteer Coordinator

Another successful school year has come to a close and with that we send out our most sincere thanks to all the parents, grandparents, retirees, and members of the community who contributed their time on behalf of our students.

Whether helping out on school picture day, as a reading helper, or assisting with book fairs, vision and hearing screenings, and much more, YOU make our schools a success.

We hope that all members of the community consider volunteering during the 2014-15 school year and for many years to come.

For more information, visit the Volunteers webpage at www.district158.org/volunteers.

Congratulations to students, families, and staff for their participation in the 2014 Jump Rope for Heart program sponsored by the American Heart Association.

Chesak Elementary $47,151.23
Leggee Elementary $45,330.21
Martin Elementary $32,705.17
District Total $125,186.61

With an average donation of $51.03 per student, the Traveling Trophy goes to Chesak Elementary School.
Preparations for New School Year

To better assist parents in preparing for the 2014-15 school year, a list of information and dates has been posted on the home page of the District website at www.district158.org.

- Physical Exam & Immunization Forms
- Free & Reduced Lunch
- Lunch Accounts
- Milk Break (Grades K-5)
- Building Tours
- Material Pick Up Days (middle & high schools)
- Red Raider Rally for Incoming Freshman
- Open House Dates (preschool - high school)

Bus Route Information

Bus routes will again be available via the E-Link system which allows parents access to their child’s bus route information through a secure site using a unique and confidential password. You can log in to the E-Link system using the password you were given last year. Bus routes will be posted beginning July 31, 2014. It is recommended that you double check your child’s bus route information a few days prior to the start of school as changes may have been made.

If you have misplaced your student’s E-Link password or have any questions, please email the Transportation Department at transportation@district158.org.

Log in to E-Link at www.district158.org/bus-routes

Bell Times for 2014-2015

To better meet the educational needs of the students, the Board of Education approved new bell times for Chesak Elementary and Martin Elementary Schools effective for the 2014-2015 school year. Below are the bell times for all District 158 schools:

**Grades K-5**
- Chesak Elementary 8:30 AM - 3:25 PM
- Conley Elementary 8:25 AM - 3:20 PM
- Leggee Elementary 8:30 AM - 3:25 PM
- Mackeben Elementary 8:30 AM - 3:25 PM
- Martin Elementary 8:00 AM - 2:55 PM

**Grades 6-12**
- Heineman Middle 7:30 AM - 2:25 PM
- Marlowe Middle 7:30 AM - 2:25 PM
- Huntley High 7:30 AM - 2:26 PM

**District Preschool Program**
- AM Session 8:40 AM - 11:10 AM
- PM Session 1:15 PM - 3:45 PM
- SNAP 8:40 AM - 1:40 PM

State law requires all schools to provide parents and community members with information about sex offenders and violent offenders against youth. You may find the Illinois Sex Offender Registry and the Murderer & Violent Offender Against Youth Registry on the Illinois State Police’s website at:

www.isp.state.il.us/sor/ • www.isp.state.il.us/cmvo/
